**15:30 Networking cocktail**

# ABOUT US

## Who we are

Smart Everything Everywhere (SEE) is a catalyst for Romania's digital transformation.

## What we do

SEE provides a framework for accelerating Romania's transition into the digital age, leveraging the country's untapped digital potential – enabling it to grow, scale and become a global innovation hub.

## What's next

SEE focuses on three pillars of the digital future: industry 4.0, smart cities and citizens, and the digital state.

**September** Second Edition of the Digital Romania Industry 4.0 Forum. This year's edition will focus on e-health, smart energy, fintech, and smart cities.

Smart City integration projects and policy paper. **December:** dissemination of policy paper to local authorities, industry and partners; nation-wide coalition-building support for Smart Cities initiatives.
