

SiloMeter

The smartest automation
system

Food Wasted
€ 38 955 Millions /
Every Year

● Remaining ● Improper Storage

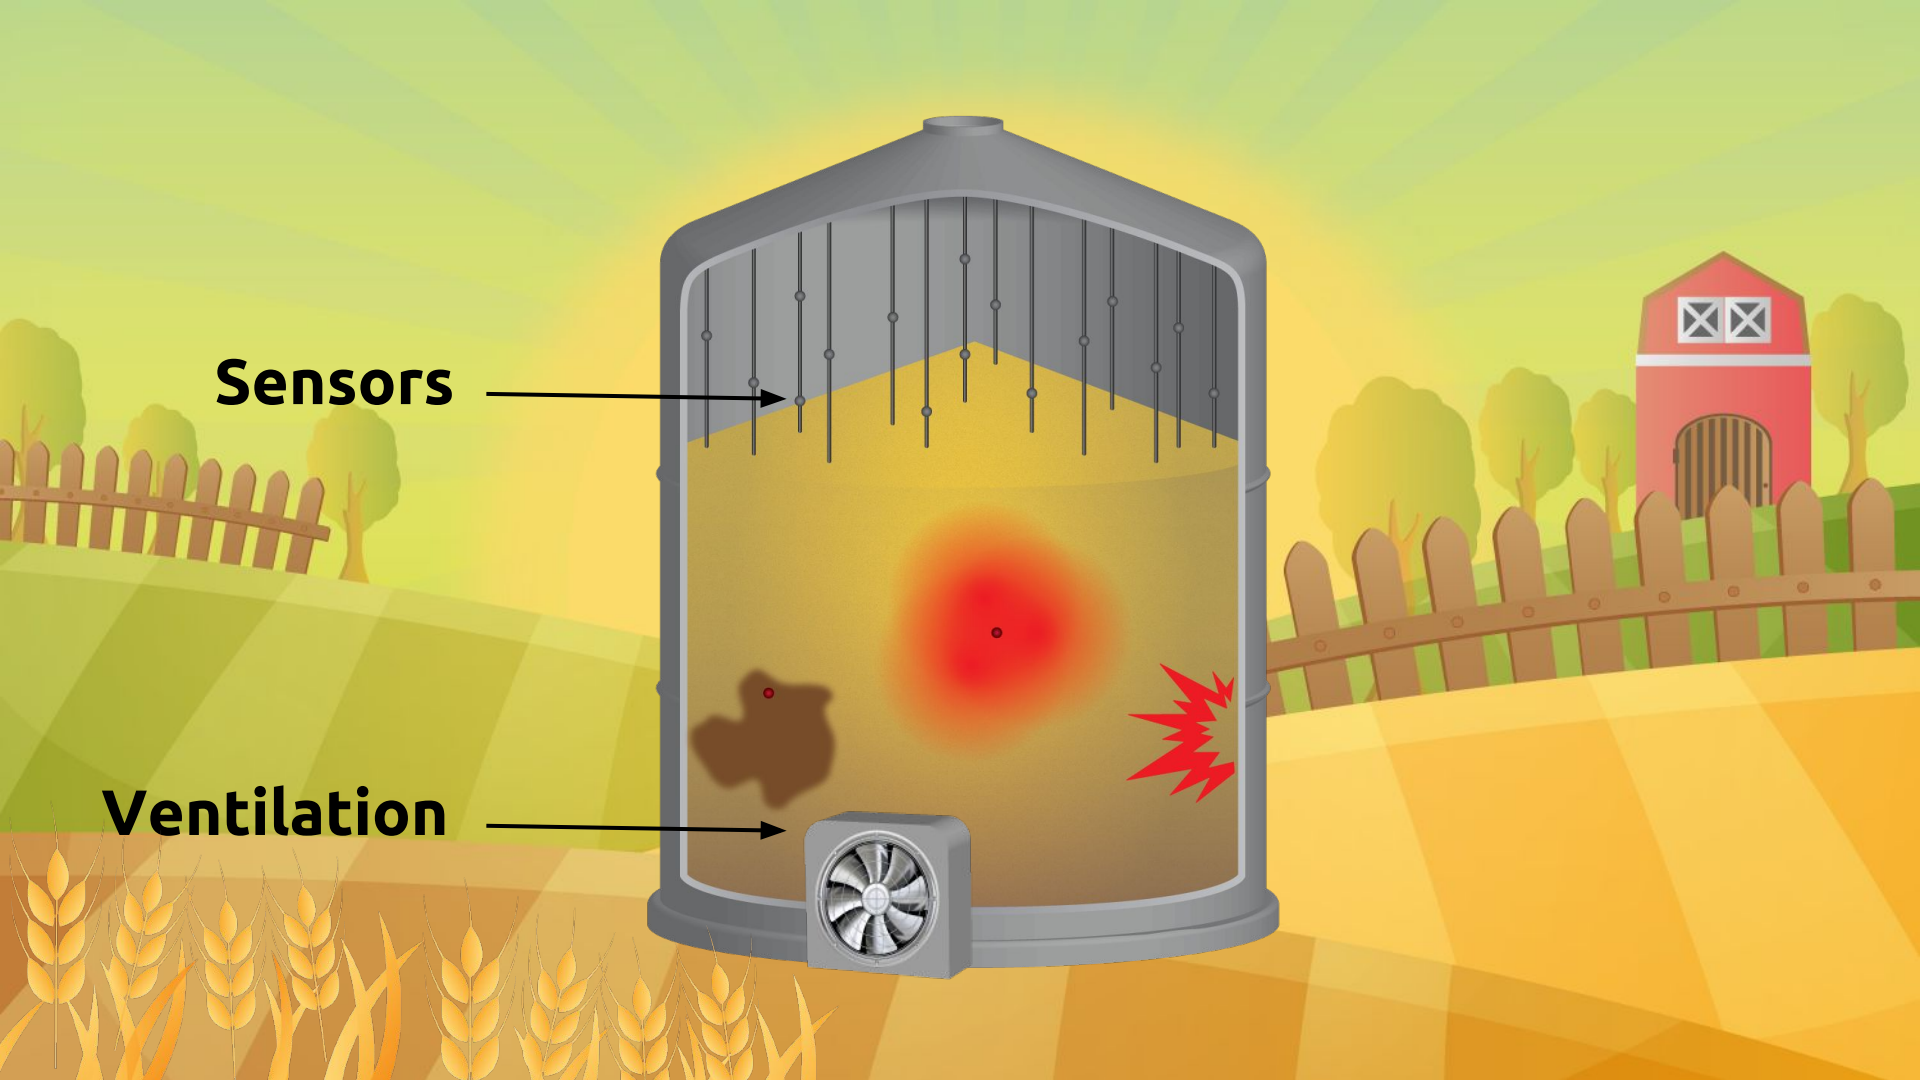

Reduced quality

Fermentation

Autocombustion

Implosion

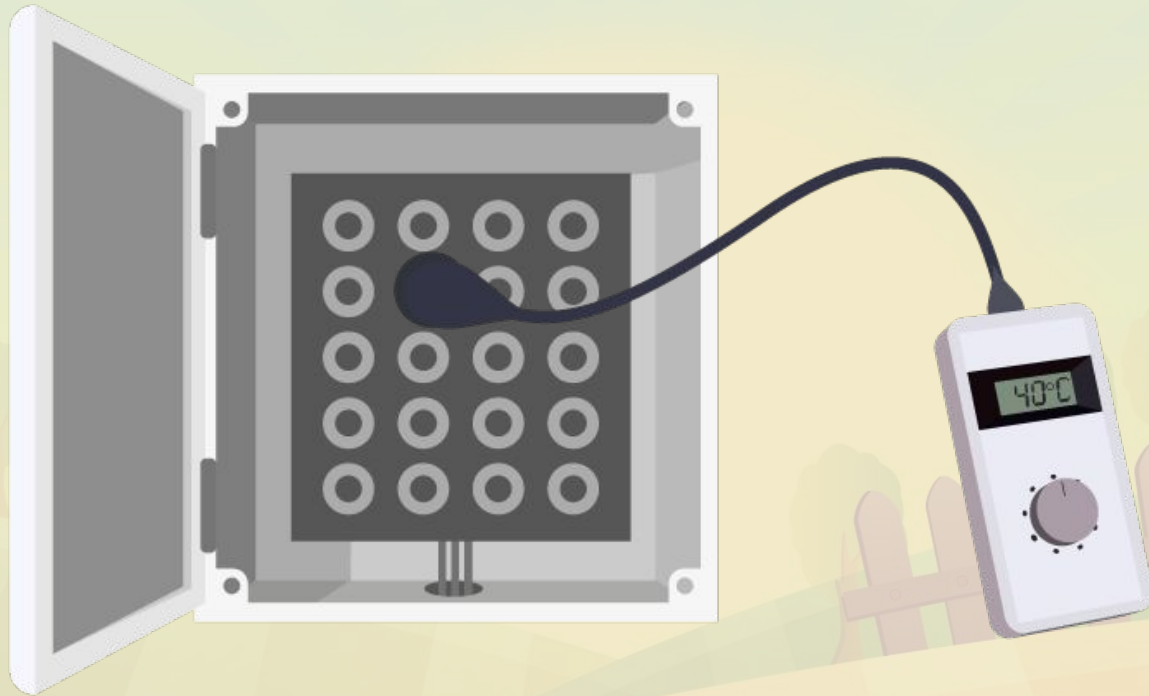

Sensors

Ventilation

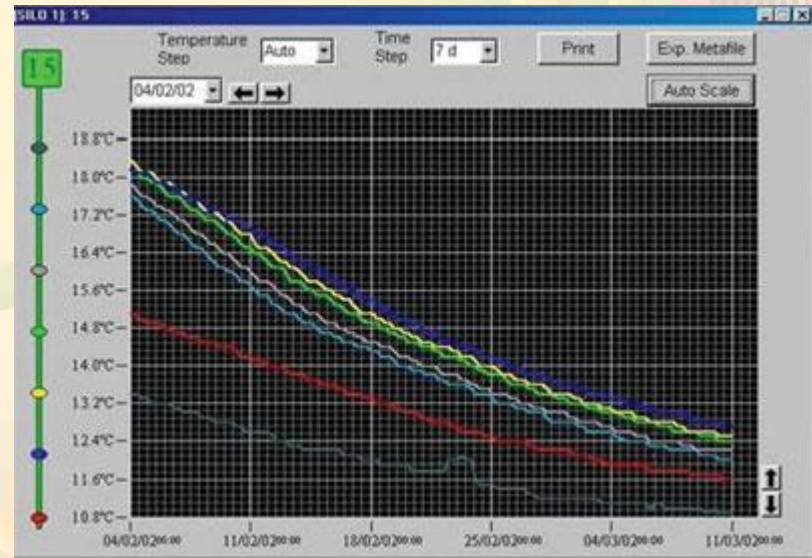

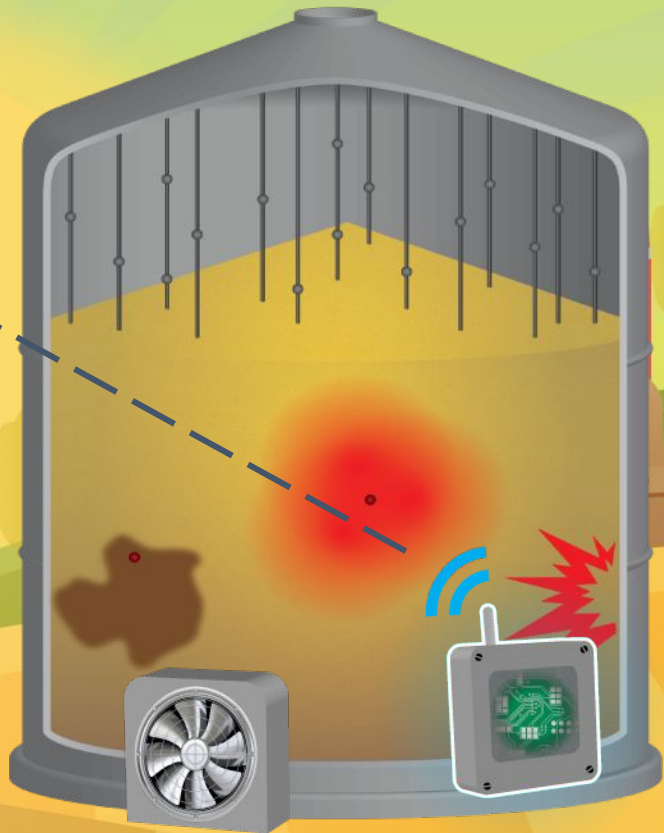

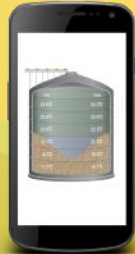

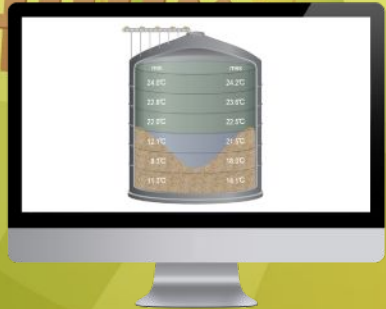

**90% use old-school measuring solutions
Or not having sensors at all**

10% have Industry 3.0 Automation Systems using PLCs

Locally installed
Limited features
Ineffective

SiloMeter

SiloMeter

Industry 4.0

Internet of Things - IoT

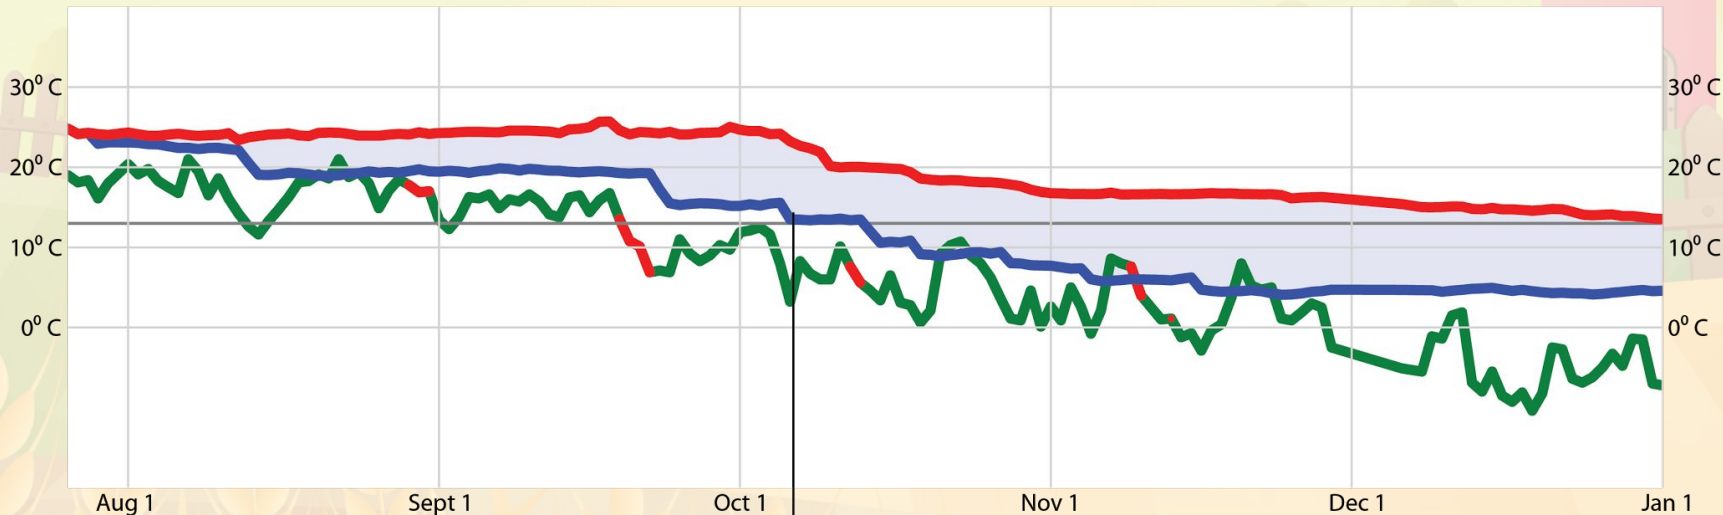

Big Data

Machine Learning (AI)

Traditional Automation Systems

vs.

Results with SiloMeter.com

- Product Temp. Traditional Automation System
- Product Temp. with SiloMeter.com
- Atmospheric temp. during the night

**Recommended 13° C reached
on the 7th of October**

Farmers

their own crops

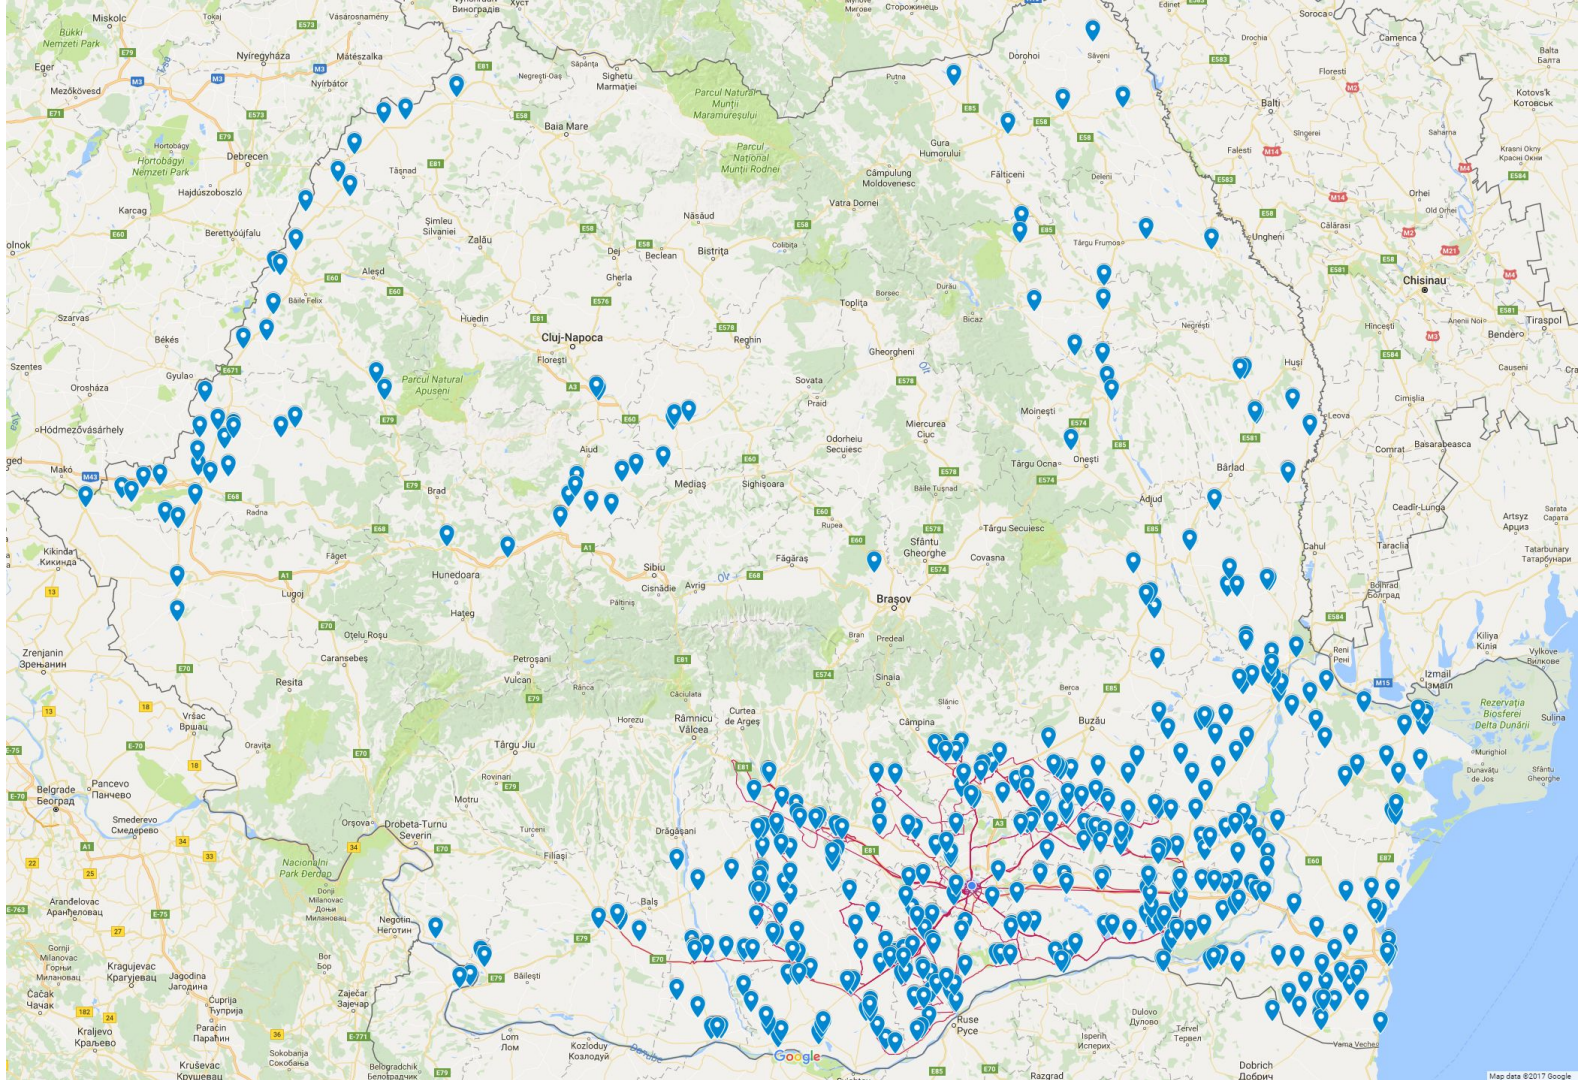

Traders

resell high volumes of cereals

Processing factories

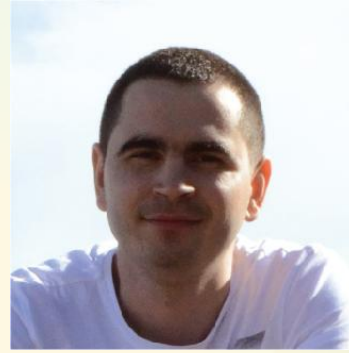

who store their own supplies

1. **MVP Academy accelerator**
 2. **Hardware already in production**
 3. **Romanian - Startup of the Year in 2016**
 4. **Considered innovative - European Parliament**
 5. **Shortlisted to TechStars - Kansas City**
 6. **Started - Partnership with RIELA, DE**
 7. **Invited to COPA COGECA conference**
